When it comes to rewards and talent management solutions, no other firm combines the human capital expertise, world-class technology and global strength of Towers Watson. Our rewards and talent consultants have the experience to know what really works. Talent|REWARD v7 combines survey management, compensation plan design and analytics, global job leveling, performance management, compensation planning, succession, career, learning management and recruiting. We also deliver total rewards communication, HR portals, strategic workforce planning and human capital metrics solutions.
